Red Ryder BB Gun History Page

This Chronology of the Daisy Red Ryder was created to help identify the approximate year your Red Ryder was produced.

<u>Year</u>	<u>Short Description</u>
1938	Daisy Started working on the Red Ryder
1939	A formal licensing agreement was signed on Oct. 6, 1939
1940	The first Daisy 111 Model 40 Red Ryder Western Carbine was assembled in 1940
1940-early 1942	All Made with Copper plated Forearm Bands
1942-1945	Production was halted during the war years
1946	Production Resumed, Blued-steel barrel and forearm bands. Barrel band was spot welded instead of being peened. Still retained distinguishing prewar cast-iron cocking lever. Fixed rear sight
1947	Cocking lever changed to black-painted aluminum
1952	Plastic forearm replaced wood
1953-1954	Adjustable rear sight returns. Plastic stock replaced wood. Late models painted steel instead of blued
1955-1961	Model 94 Gun, Gun was totally restyled
1972	Model 1938, Almost identical to the 1953 111-40
1977	Red Ryder Lariat Signature Logo is now on right side of stock, Years before logo was on left
1979	Model 1938A, Modified safety mechanism. Very rare due a recall of the new safety and the ones sent back in for repair were stamped A-B
1980	Shot tube eliminated. Loading tube replaced by a loading door system
1988	The 50th Anniversary Edition
Still being made today and several collector limited editions made over the past years.
